

The Training Fleet Windsurf Board Users Guide

1. On collection of the fleet from the Oulton Broad base please check that the items on the trailer match those on the checklist on this page. Each board is numbered and its mast, sail, mast foot or any extensions, dagger plate or fin is also numbered to that board. Please ensure everything is there.

Let the Windsurf Training Fleets Manager know immediately of any breakages or missing gear. His details are on the bottom of this sheet.

2. On arrival, hose down the boards on their road trailer to remove dust, road grit and grime. Prior to returning the fleet please wash down gear, boats and trailer in fresh water to reduce the potential spread of invasive species.

3. Try to keep each board and its gear together. This way items don't get mislaid.

4. Encourage youngsters and their parents to rig and set up the boards properly, it reduces subsequent damage afloat.

5. Do not attached unauthorised stickers to the boards or the sails, without permission from RYA East. You may be charged if we have to have stickers removed professionally.

6. Remove sails from spars and ensure they are clean and dry before being bagged. (If a fleet is returned in a badly soiled condition we may make a charge for cleaning.)

7. Do not mix gear between fleets or boards, or between our fleet and any others.

8. Replace broken or missing gear with identical equipment.

9. Clean the boards and hand them back as you would have wished to receive them.

10 Before you return the fleet to base please check that everything is there. Let the Windsurf Training Fleets Manager know immediately of any breakages or missing gear. **FLEETS RETURNED WITH UNREPORTED LOSSES OR DAMAGE WILL INCUR A REPLACEMENT CHARGED BACK TO THE LAST HIRER.**

Above all ensure the youngsters have fun using these boats safely
